

To Chairman Powell and other members of FCC,
You seem to think that everyone has cable TV. This is not the case. By choice, we do not have cable, and therefore are dependent on ONLY ONE newspaper in Syracuse and the 3 networks plus PBS. We cannot get any of the other TV stations because of poor reception.
I think most of the info we get through the media is ALREADY controlled by big business interests. We watch the half hour of BBC news available on PBS in Syracuse just to keep an eye on the main stream news. It's become obvious to me how much the U.S.press is "filtered" - don't make the media situation worse than it already is. I was brought up to believe that being an American meant having a voice..lots of voices, not just a few.
